

## Periscope Sermon Series

Welcome to the Periscope sermon series. These sermons topics are an important part of your church's Periscope Experience. Each week we provide some relevant information from our research that illuminates the importance of that week's topic. This information is followed by an outline prepared by Kerby Anderson which may be used to help develop your sermon. Each sermon is accompanied by a short introductory video intended to be used at the beginning of the sermon (but could be used during the sermon if desired). The sermons and the associated videos are as follows:
